

Nature Pendant with Charms

Design a pendant that is approximately 1.5" x2" that is inspired by something found in nature.

- It can be a strict interpretation of something (a specific animal or shape) or a loose interpretation. (ex. - A shape that resembles a leaf or a sun)
- It may have sweat soldering, but is not required
- It may have negative shapes, but is not required
- It MUST have additional charms (such as 1 or 2 beads or a smaller created metal shape)

Check out the website “[ETSY.com.](https://www.etsy.com)” This is a website for artists to sell their own work. There is a LOT of jewelry references on there. (Ex. – Look up “Cat necklace” “Nature Necklace w/ Charm” or “Charm Necklace” to get ideas for the charm portion of your necklace.)

Print out 3 different options for you to use as ideas on your own project. Print out on 1 piece of paper.
